**Everybody Wants Some**
Van Halen

the tablatures are pretty acurate, be gentle its my first tabbing.

Intro

```
------------------------------------------------------------------|
------------------------------------------------------------------|
------------------------------------------------------------------|
------------------------------------------------------------------|
------------------------------------------------------------------|
```
-put you palm on bridge on this string and rub it down and up constantly-

```
------------------------------------------------------------|
------------------------------------------------------------|
---------2-0-2-0--------------------------------------------|
-2---2---2-0-2-0--------------------------------------------|
-2---2---0--------------------------------------------------|
```

solo
```
-----------------------------------------------------------|
-10-10-10-9--9--9--7-7-7-5-5-5------------------------------|
-12-12-12-11-11-11-9-9-9-7-7-7--repeat-twice---------------|
-----------------------------------------------------------|
-----------------------------------------------------------|
-----------------------------------------------------------|
```

```
-----------------------------------------------------------|
-10-10-10-12-12-12-15-15-15--------------------------------|
-12-12-12-14-14-14-17-17-17--------------------------------|
-----------------------------------------------------------|
-----------------------------------------------------------|
-----------------------------------------------------------|
```

```
-17-17-17-16-16-16-14-14-14-12-12-12-repeat-3-times---------|
-----------------------------------------------------------|
-----------------------------------------------------------|
-----------------------------------------------------------|
-----------------------------------------------------------|
-----------------------------------------------------------|
```

```
-17-17-17-18-18-18-20b-20b-20b-20--------------------------|
-----------------------------------------------------------|
-----------------------------------------------------------|
-----------------------------------------------------------|
-----------------------------------------------------------|
-----------------------------------------------------------|
```
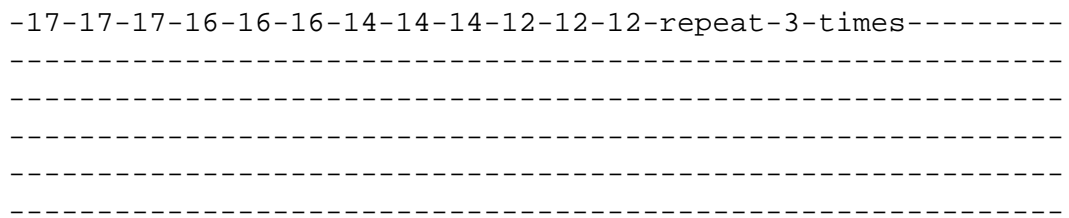

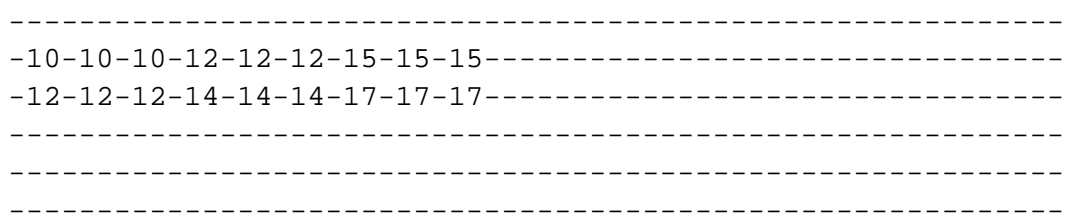

end of solo

```
=============================================================
the part when dave talks and edd plays the guitar after each senteces that he
does , and
hear the intro drums in background

----------------------------------------------------------------|
----------------------------------------------------------------|
----------------------------------------------------------------|
-2-2-2----5-5-5--------------------------------------------------|
-2-2-2----5-5-5--------------------------------------------------|
-0-0-0----3-3-3--reapeat this through the part near end of -------|

then go back to main riff
```
