

Girl Gone Bad  
Van Halen

GIRL GONE BAD

by \*

done with Bucket o Tab (get it from \*)

ok im gonna start off after the tapped/fingerpicked little intro,where the picking comes in.I did this just messing around and thought id upload it,if you really need the intro that bad email me.

There is some bass notes in the song that make the chords sound different and wouldnt sound right without them, so i added them as well.

/tremelo picking.

```

-----|-----0-3-5--|
-----|-----5-----|
-----0h2---|-----2h4--0h5-----0h5-----|
-----2-----2-----|-----|
0h2--2h3-----2h3-----|-----|
-----|-----|

```

bend up 1/2,bring back down

/

```

-----|-----0-----0-----|
-----/-----|-----0-----1--1-----|
---2--2--4h2-----4h2h0--|--2--2-----2--2-----5--5--|
-----|-----2--2--2--2-----5--5--|
-----|-----0--0--0--0-----0--0--0--0--0--3--3--|
-----|-----4-----|

```

^^Repeat this twice,then third time add in:

```

-----: ) all
the notes played
-----1-----: ) at
the fourth fret
-----2-----: )
are bent up one
-----3--| half step and vi-: )
---0---0-----0-----0--0--0-----0--0-----: )
brated.(Listen to the
-----*4---4--4--4-----4--4-----4-----5-----| damn *: )

```

i didnt add in that first fast lick thingee he does in between doing the last part twice because i cant make out what notes he is doing by just listening to it and i couldve slowed it down w/my computer but i havent got around to \*,right before the verses is:

```

----t-----t-----t---|
--/-----| )

```

```

---10h9-----|-----|
---10---13--12--11--10--9--8--7--6--|-----|
---9-----12--12--10--10--9--8--7--6--|----- (5)----- (7)-- (12)--|
-----|----- (5)----- (5)-- (7)-----|
-----|-----|
-----|-----|

```

Next is that thing after the first chorus.

```

-----|
-----|
-----|
-----5-----7--7--7--9--9--9-----|
-----2--3--3--3--5--5--5--7--7--7--8--3--|
-----0-----1--|

```

Now the sections before the \* first part is played \* second part leads into the solo.

```

-----|-----|
-----3h2--0-----|-----|
2-----2/---x--x--2---2--0--|-----|
2-----2-----0--|-----4--3~~~--4~~~--4--3~~~--4--|
0-----0-----|-----|
--4~~~-----3--|--2-----2-----|

```

```

* |
-----7-----|
-----7--7--6~~~--7-----9-----11-----12-----14--|
-----/---7-----|
-----|
-----|

```

play again, except substitute ^ (the above \*) w/:

```

-----|
-----7h6-----6h5-----5h4-----3--|
-----0-----0-----|
-----0h7--7h6-----6h5-----0h5--5h4-----3--|
-----|

```

And thats all ive done. I didnt do the solo, like i said, i was just trying out this tab program and while messing with it i was tabbing it out, and thought i would upload it. ok latah.
