Crashing Into You
Vance Joy

[Intro] **Em G C G Am**

Em   **G**   **C**
You were the one to visit my darkness
                    Am
You were the brightest way
Em   **G**   **C**
You dropped a stone into the well
                       G   Am
We d wait for the sound it made
Em   **G**   **C**
When it got quiet, you could hear your heart
              G   Am
Tell me, what did it say?
Em   **G**   **C**
I was a bird, you opened the cage
                   G   Am
It felt like a clean white page

[Refrão]

D   **G**
You came along
                            C   **Am**
You light up my days, my personal sun
D   **G**   **C**
Showing me all the ways I could fall
                          Am
You made me feel new
                               Em   **G**
I m crashing, I m crashing right into you
C   **Am**
Baby, feel me crash
                               Em   **G**
I m crashing, I m crashing right into you
C   **Am**
Baby, feel me crash
