[Intro] Am F C
       Am F C
[Primeira Parte]
Am
  You think you re ready
                                      Am
But you ve got too much on your mind
Too much left to prove
  No easy answers
                                 Am
You ve got to work it out yourself
You won t hear anyone but you
[Refrão]
    Dm
The moment you stop looking
Wherever you go, you ll be in the right place
                      F
You ll never know the difference it makes
                       F
When you let go, and give up your chance
                       F
              Am
I ll come find you one of these days
[Segunda Parte]
Αm
 We ve got potential
                                Am
But it s the future you and me
When the coast is cleared
 You see the sunrise
I see your soul shine through to your eyes
When you re here
```
