Play With Fire
Vance Joy

[Intro]

G C F   X2

[Verse]

```
G      C                F                      G
   I m done, I m done, I don t care how you feel
     C                  F              G
   I m done, I m done for now
          C              F                  G
   And I see, I see with every glance that I steal
     C              F
   I m done, I m done for now
```

[Chorus]

```
                 G          C      F
   You say you re used to playin with fire
                 G          C      F
   You say you re heart is on your sleeve
                 G      C      F
   You say you re sometimes sentimental
                 G          C      F
   Well that aint showin through to me
```

[Verse]

```
G        C              F                      G
   And I see, I see that I could do no wrong
   C              F              G
   In my old mans eyes
        C                  F                  G
   And I swear, I swear that I would try it on
    C                F              G
   Before the day I die
```

[Chorus]

```
                 G          C      F
   You say you re used to playin with fire
                 G          C      F
   You say you re heart is on your sleeve
```

```
                G       C      F
   You say you re sometimes sentimental
                    G           C       F
   Well that aint showin through to me

[Verse]

G  C              F
   And I guess I knew it
G  C           F
   This whole time
G  C              F
   But these old feelings
G  C              F
   They make me blind

[Chorus]

                  G              C       F
   You say you re used to playin with fire
                  G            C       F
   You say you re heart is on your sleeve
                  G         C     F
   You say you re sometimes sentimental
                  G             C       F
   Well that aint showin through to me

                  G              C       F
   You say you re used to playin with fire
                  G            C       F
   You say you re heart is on your sleeve
                  G         C     F
   You say you re sometimes sentimental
                  G             C       F
   Well that aint showin through to me
```
