(Note: I figured this all out by ear so if some of it s wrong, i m sorry. This is my first tab.)

Am D C Em  
She d do anything to sparkle in his eye  
D C Em  
She would suffer, she would fight, and compromise  
D C Em  
She s been wishin on the stars that shine so bright  
D C Em D  
For answers to the questions that will haunt her tonight

Am D C Em  
She must rinse this all away  
D C Em  
She can t hold him this way  
D C Em  
She must rinse this all away  
D C Em  
She can t love him this way

Em D C Em  
How she d be soothed, how she d be saved if he could see  
D C Em D  
She needs to be held in his arms to be free  
C Em D C  
But everything happens for reasons that she will never understand  
Em D C Em  
til she knows the heart of a woman will never be found in the arms of a man

[Chorus]

Em D C Em  
And if she runs away she fears she won t be followed  
D C Em D  
What could be worse than leaving something behind  
C Em D C  
And as the depth of oceans slowly become shallow  
Em D C  
It s loneliness she finds...  
Em D C  
If only he was mine

Em D C Em  
She d do anything to sparkle in his eye  
D C Em D
