

I can't deny I am afraid,  
I won't walk by and fade away.  
Encaptured I belong to you, so cold, astray.

Chorus:

Craving life, deprived inside, now I surrender.  
You captured me within your light,  
Do you remember...

Chorus:

Craving life, deprived inside... now I surrender.  
You captured me within your light,  
Do you remember...

Craving life, deprived inside, now I surrender.  
You captured me within your light,  
Within, within your light,  
Within your life, within your light,  
Now I surrender.
