Capo 4/5 (wat je zelf prettiger vind)
Ik ben een beginner en volgens mij klinkt het zo goed,
maar als er iets niet helemaal goed klinkt of beter kan,
laat het mij weten, dan verander ik het ;)

Too Good To Lose - Van Velzen

G   **D**   **Cadd9**
So many times I said goodbye
                          C
Just give in and let it slide
         Am   **D**   **G**
I would hardly put up a fight

       D   **Cadd9**
Always one eye at the door
                         C
Should I run, just like before
         Am   **D**   **C**
 Till I can t feel a thing anymore

   Cadd9   **D**   **Cadd9**
My thoughts abusing me through the night
     Em7   **D**
I m all confused

          Cadd9   **G**
 Cause it s too good to lose
        Em7   **D**
And it s too hard to keep
   Cadd9   **G**   **Em7**   **D**
But I still got you to hold on to
          Cadd9   **G**
I better make up my mind
              Em7 - **D** - **C**
While there s time to chose

```
Cadd9          D          G
This time it s too good to lose

G        D           Cadd9
I taught myself how to survive
                          C
But I should leave that time behind
          Am          D          G
 Cause it sure feels like home this time

G        D           Cadd9
How I d love to settle down
                          C
I m scared to death, I don t know how
          Am              D
Won t you please show me now

Cadd9                 D           Cadd9
My thoughts abusing me through the night
   Em7          D
I m all confused

          Cadd9      G
 Cause it s too good to lose
      Em7          D
And it s too hard to keep
    Cadd9      G      Em7      D
But I still got you to hold on to
          Cadd9      G
I better make up my mind
             Em7 - D - C
While there s time to chose
Cadd9          D
This time it s too good,

G            D           Cadd9          C
Stuck in the middle of the bitter and the sweet
G        D           Cadd9          C-D-Cadd9
Sometimes what you want is not what you need

          Cadd9      G
I m gonna make up my mind
             Em7 - D - C
While there s time to chose
Cadd9          D          G
Yeah, it s too good to lose
      Em7          D
It s too hard to keep
Cadd9        G      Em7      D
