There s a tattoo of your name across my soul

[Same chords throughout]

I bought a rifle and black guns without a name

For an alibi she went six states away

When I saw him I felt fire I felt cold

Like the devil and the lord wanted my soul

Like the tattoo of your name across my soul

So I shot him in his car until he died

I called to give the signal and she cried

Life has a way of making other plans

She called the cops and said I was a crazy man

I m gonna get this thing removed when I can

[Solo]

There was never any policy

And the bruises came from falling on the street

So the judge gave me one hundred thousand years

In the courtroom she was filling up with tears

I saw her hold the lawyer s hand real tight
They looked tired from lack of sleep last night
Seems the whole time she had me under control

With a tattoo of her name across my soul

She gets off and I will never have parole

Just this tattoo of your name across my soul
Just this tattoo of your name across my soul
