G |-----  
D | -12---12---12-----12---12-----12-----

```

e|-----
B|-----
G|-11-----10-----11-----14-----13-----17---
D|-----
A|-9-----8-----9-----12-----11-----15---
D|-----

```

Best done with a Wah pedal

Work out the Rhythm yourself, because it would take me ages to type every chord

After this, its back to the Pre-Chorus Riff

Then:

```

e|-----
B|-----
G|-----7---10---9---8-----
D|-0-----
A|-0-----5---8---7---6-----
D|-0-----

```

After playing the D chord, the switch is toggled.

Then The Main riff joins in.

In the next chorus a Wah pedal is used to play the rhythm part.
