This song is capoed at the third fret. It s actually at the fourth as
VH tunes to E flat. The picking pattern is tough and there is alot of
Dsus2 and Asus2. All chords are in open positions. An easier version is
using Travis-style finger picking with the indicated chords. All
fingerings are relative to the capo. Each - is a sixteenth and each chord
begins under the first letter of the chord name in the tab. * = hammered.

(Go directly into You are... from beginning of verse music with no

hammer)

You are this lonely picker s daydream
Like a wish that s wishing to come true
To share this love song with you.

To share... is sung with the same music as I didn t know... and then
there is this short instrumental part leading into the chorus.

Verse 2

We shared some special night together
 We said we d watch the morning rise
 But when the sun was all around us
 Wasn t nothing I hadn t seen in your eyes.

I try so hard to keep it hidden
 But I am hurting deep inside
 For every time I ve seen you smile
 There are two times that I have cried.

Chorus

Up through Do you ever think... is the same as first then Or do you
 only think about me when it rains twice with 8 beats for first and only 6
 for second.
