To Baby
Vetiver

```
C
C                                                Em
You gave me all the love that s necessary
                             Am
when two people try to find themselves,
C                        Em
love beyond all common sense
                              Am
based on some sweet permanence
      Em
with only one
Dm             Em          C
and baby I thought I needed you
             Em
in a changing world
Dm             Em          C
baby I thought I needed you

C

C
Wanting some to give away,
Em
important things I had to say
        Am
for many days,
C                      Em
suddenly you came along
                         Am
helped me share my perfect song
in perfect ways,
Dm             Em             C
and baby I thought I needed you
          Em
in a changing world,
Dm             Em        C
I thought I needed you

C

C
The closer that we drew together
Em
made our love seem like forever,
Am
naturally,
C                              Em
```

and then I heard you sing the song
                              Am
that I was singing all along
and failed to see,
Dm
baby,
Em   C
the thing that I most fear
          Em
in a changing world:
                    G#   C#   G
  I saw you disappear
G#   C#
G   C

C
Empty now and silently
Em
I face your struggle to be free
Am
to be on your own,
C   Em
to grow so very carefully
                    Am
and suffer necessarily
for what I ve done
Dm   Em   C
to baby who wants to know the thing
    Em
in a changing world
Dm   Em   C   Em
to baby who s learning how to sing

Repeat out- **Dm Em C Em Dm**
