How to save your life
Bm D G

Bm D G
that of so many reasons
Bm D G

D F#m G
And I walk on the tip of my toes
and the second after
D F#m G
I m squashed up against the wall
Bm
Like a bird in a cage
D G
who s not able to fly
Bm
Like a bird who no longer
D G

Bridge: **E G** (2x)

E G
Scared of the sun and scared of the height
E
They built a cage around you
G
And now that s what you like

How to save your life
from your mind tides
that of so many reasons
only leave your doubts

And I toss and turn in my bed
And my heart beats so fast that I just can t rest
And to close my eyes doesn t seem so kind
And I get this feeling like I m about to die

Scared of the sun and scared of the height
They built a cage around you
And now that s what you like
Come as you are
Just follow your heart

Don't be shy to have faith
It's a lonely embrace

Solo: **D F#m G** (4x)

D F#m G
Come on come on come on

D
I need the strenght

F#m G
The strenght that is gone
(repeat the last part a few times)
