

Country Death Song  
Violent Femmes

This what the bass plays most of the time, but as I don t have a bass  
this is what my guitar plays :)  
You can move it down to the open strings but it sounds better to me here.  
I know this is ridiculously short but I just have to add something to the few

Please some Sinead O`Connor, please please, please.

And feel free to mail/correct/flame me :)
