I hear the bells chime in the air  
I feel the misdeed on this land  
They deceased with our gods  
But our faith remains the same

They come with crosses, priests and rites  
Destroying all that in ages we found  
Disrespecting our rights  
Spreading the Christ by all the ground

You must believe in our true  
You must drink only of our wine  
You must follow the sacred Bible  
Our god will save your life

But he is the whipper of our souls  
Death and fear are his whips  
And he ll never take my life  
In my heart he ll never be

Fight for your faith don t be tied  
By the claws of the whipper  
Make your mistakes never follow  
The laws of the whipper

Don t let them choke you don t let them  
To kill you by the whipper  
Keep on your faith that s the only  
Knowledge the whipper

How can we make our people

Forget this belief

Years have passed and consolidated

The worst lie that in the world be

But I know, the truthful god

Has no religion has no rules

He s the true that ourselves find

And not what the others place in us
