Staining the clouds of blood  
 Spread the ashes of riot  
 Reaping who fight to live  
 Messengers of hate  
 The night into the end  
 Clouds don t show the day  
 While comes the sunrise ray  
 The death laughs by my side  
 Now the dream forever ended  
 Wings of death fall to the earth  
 Force of light have broken the oath  
 Masters of evil now you have my soul

```

Wings of the evil will take me through the sky
I need the evil force to stay on high
Flying across the stars riding in the air
No mercy to kill the men no fear of the death
