

**Im So Lonesome I Could Cry**  
**Volbeat**

Volbeat - I m So Lonesome I Could Cry

**G**

Hear the lonesome whippoorwill

He sounds too blue to fly

**C**

**G**

The midnight train is whining low

**D**

**G**

I m So Lonesome I Could Cry

**G**

I never seen a night so long

When times goes crawling by

**C**

**G**

The moon just went behind a cloud

**D**

**G**

To hide it s face and cry

Ref.:

**E**

Well maybe the night is cold

**A**

But together they fade

**D**

Like the shadow that ran up to the hills

**G**

Trying to fix her wings

**E**

There s a saint and a sinner

**A**

And forever the missing day

**D**

Where the winners and the losers feel the same

**G**

Who knows what tomorrow brings

**G**

Did you ever see a robin weep

When leaves begin to die

**C**

**G**

That means he s lost the will to live

**D**

**G**

I m So Lonesome I Could Cry

**G**

The silence of a falling star

Lights a purple sky

**C**

**G**

And so I wonder where you are

**D**

**G**

I m So Lonesome I Could Cry

Ref.:

**E**

Well maybe the night is cold

**A**

But together they fade

**D**

Like the shadow that ran up to the hills

**G**

Trying to fix her wings

**E**

There s a saint and a sinner

**A**

And forever the missing day

**D**

Where the winners and the losers feel the same

**G**

Who knows what tomorrow brings

**G**

Hear the lonesome whippoorwill

He sounds too blue to fly

**C**

**G**

The midnight train is whining low

**D**

**G**

I m So Lonesome I Could Cry
