**Volbeat**

Volbeat - I m So Lonesome I Could Cry

**B**

Hear the lonesome whippoorwill

He sounds too blue to fly

**E**

**B**

The midnight train is whining low

**F#**

**B**

I m So Lonesome I Could Cry

**B**

I never seen a night so long

When times goes crawling by

**E**

**B**

The moon just went behind a cloud

**F#**

**B**

To hide it s face and cry

Ref.:

**G#**

Well maybe the night is cold

**C#**

But together they fade

**F#**

Like the shadow that ran up to the hills

**B**

Trying to fix her wings

**G#**

There s a saint and a sinner

**C#**

And forever the missing day

**F#**

Where the winners and the losers feel the same

**B**

Who knows what tomorrow brings

**B**

Did you ever see a robin weep

When leaves begin to die

**E**

**B**

That means he s lost the will to live

**F#**

**B**

I m So Lonesome I Could Cry

**B**

The silence of a falling star

Lights a purple sky

**E**

**B**

And so I wonder where you are

**F#**

**B**

I m So Lonesome I Could Cry

Ref.:

**G#**

Well maybe the night is cold

**C#**

But together they fade

**F#**

Like the shadow that ran up to the hills
