

Lola Montez
Volbeat

[Verse]

D **G**
Feel the fire where she walks
A **D**
Lola Montez so beautiful
D **G**
Shady and a tempered dame
A **D**
Blinding your eyes with her spider dance

Strum **D-G-A-D** with **A** round-off to **A** (You ll hear it)

D **G** **A** **D**
Her performance utterly erotic subversive to all ideas
D **G**
And for public morality
A **D**
And cool as she was she didn t care
D **G**
See the miner throw his gold
A **D**
Lifting her skirt howling loud like a wolf
D **G**
Hell raising and full of sin
A **D**
When Lola was dancing and showing her skin

[Chorus]

(Mute) **G**
Wherever she walks
A **D** **Bm**
She will be captivating all the men
A **D**
Don t look in her eyes
G **A** **D** **A** **G** **A**
You might fall and find the love of your life heavenly
D **Bm**
But she ll catch you in her web
A **D**
The love of your life

Well notorious I have been
But never for fame that s what she said
Dear Henry taste my whip

Never to see any words you print

Oh Lola I m sure that the love would have been
The key to all your pain
No words will later come
Did she spider bite your tongue
We will surely not forget the lola spider dance
