

**Riding A Black Unicorn**  
**Voltaire**

Tune your guitar a Full Step Down ( D G C F A D )

**Dm**                    **Am**  
A darkness falls over the land  
**Dm**                    **Am**  
Enslaves with a wave of its hand  
**Dm**                    **Am**  
And I try to see  
**E**                    **B7**  
The light through the disease  
**Dm**                    **Am**  
I tried to get up on my feet  
**Dm**                    **Am**  
Been so long, shackled down on my knees  
**Dm**                    **Am**  
For somewhere deep inside, I know  
**E**                    **B7**  
That fate favors the bold

**C**                    **D**                    **G**                    **C**  
So tonight, Iâ€™m riding a black unicorn  
**C**                    **D**                    **G**  
Down the side of an erupting volcano  
**C**                    **C**                    **D**                    **D**  
And I drink, drink, drink  
**G**                    **C**  
From a chalice filled  
**C**                    **D**                    **Em**  
With the laughter of small children

**Dm**                    **Am**  
When darkness is drowning your soul  
**Dm**                    **Am**  
And makes you feel alone in the cold  
**Dm**                    **Am**  
Find me, and grab ahold  
**E**                    **B7**  
This chalice, it overflows

**C**                    **D**                    **G**                    **C**  
So tonight, youâ€™re riding a black unicorn  
**C**                    **D**                    **G**  
Down the side of an erupting volcano  
**C**                    **C**                    **D**  
And you drink, drink, drink  
**G**                    **C**

From a chalice filled  
          **C**          **D**          **Em**  
With the laughter of small children

**Am**                  **G**  
Lords of strength and gods of might

**Am**          **G**  
Hand over the reins

**Am**          **G**  
Bless our path, that tonight

**D**                  **B7**  
We find the will to break these chains

**C**  
And ride!

(Violin solo, play the chorus chords, as soon as the song kicks into the last chorus end on a Em then play the below)

**C**          **D**                  **G**          **C**  
So tonight, weâ€™re riding our black unicorns

**C**          **D**                  **G**  
Down the side of an erupting volcano

**C**          **C**          **D**  
And we drink, drink, drink

**G**                  **C**  
From a chalice filled

**C**          **D**                  **Em**  
With the laughter of small children

**C**          **D**                  **Em**  
And the blood and tears of our enemies

Violin solo s till the end, play the chorus chords and end on a **Em**

Hope ya enjoy, will do more from the album soon!
