

I poured my heart out into an empty coffee cup

**A G D-A-G G7**

You drank it up and left me here to drown... alone

**Bm G A**  
You let me down again, when you ignored the things I said to you

**Bm G A**  
If I was scared of you, then maybe I could leave

**Bm G A**  
and if I walked away right now

**Bm G A**  
There would be nothing left for me to lose but I can't lose you  
I can't lose you

**Bm G A D A G**  
I think I've seen every star that I care to see but I don't wanna leave

**Bm A**  
It hurts when you're self-deceived

**Bm G A**  
I know I shouldn't believe a word you say;

**D A G A**  
I do it anyway, cuz I'm dumb like that

**Bm A**  
And all the words I've given to you;

**G D A Bm**  
When you smiled I thought that it meant something else

**A G D A G G7**  
You were just being yourself, being nice, you're always rather polite to me

**Bm G A**  
You let me down again, when you ignored the things I said to you

**Bm G A**  
If I was scared of you, then maybe I could leave

**Bm G A**  
and if I walked away right now

**Bm G A G Bm A**  
There would be nothing left for me to lose but doubt... but doubt... but doubt

**Bm G A Bm**  
There's nothing left, there's nothing left - for me to lose but doubt X3

Let last chord ring and fade to end. Enjoy!
