Love lost, left broken and empty

Set a fire to the past and watched me burn

[Verse 1]

Em C D  
Somehow I guess it s better this way

Em C D  
Looking back, was it all just a mistake?

Thought I could live in the arms of another

Em C D Em  
But I guess I wasn t enough for her

[ Chorus 1 ]

Em C Em  
I wanna feel the love you can't live without  
Em D Em  
The one that Johnny Cash wrote all his songs about

Guess it's just another lesson that I'll never learn

Em C D  
I've been putting myself through your Hell

Em C D  
Holding on to things that don't even matter now

You found your place in the arms of another

But now I see it s just the way the Earth will turn

[Chorus 2]

**Em** **C** **Em**  
I wanna feel the love you can t live without  
**Em** **D** **Em**

Can t seem to fill the void that lives in my chest  
**Em** **D** **Em**  
Thought I was what you need, but I m just second best  
**Em** **C** **Em**  
I ll never give it all away again I swear

Don t even look for a heart, you ll find there s nothing  
**Em**  
there

**Em** **C** **Am**  
(I can t take it back)  
**Em** **Em**  
All the years that we spent together have come to an end

(I can t take it back)  
**Em** **Em**  
The memories, the pictures, I love you s will wither  
  
**Em** **C** **D**  
(Regret is all I had)  
**Em** **D**  
But this is the last song I ll write about you

Forget my name

Forget my face

It was all just empty space

**Em**

Deadweight; no longer part of me
