Walk off the Earth

Here are the chords for this awesome song by WOTE. Hopefully this is vaguely correct.

It s my first tab so please be gentle.

The one concern I have is the Am7/G chord in the verse. I ve watched live footage of the band and noticed that Ryan releases his 3rd finger from the Am chord and plays the 3rd fret on the E string (or at least it sounds like it), thus making (I believe), an Am7/G chord. I m still getting to grips with the lesser known chords, so any assistance would be welcomed. How I ve interpreted the chord should be below.

Listen to the song for rhythm and to try and figure out what I mean regarding the chord itself

As I say, I don t think it s perfect, but it may be a start for someone to improve on. Any comments, criticisms and feedback would be most welcome to caerusaviation@gmail.com

Enjoy. :)
