This is my first attempt at a tab, so hopefully someone will find it useful. The chords may not line up with the lyrics 100% correctly, but you should be able

to get the gist.

The strumming for the majority of the song is pretty basic, though I believe the intro is alternated with a Down then Up strum pattern and the first chord of the verse (G) is raked upward. Listen to the song if you get lost. Enjoy.
