Dig Another Hole

**G F# Bm D G F# Bm D**  
Yeah, I know it s hard for you to show just how you feel  
**G F# Bm D G F# Bm D**  
But would it make a difference if I showed you how?  
**G F# Bm D G F# Bm D**  
And all the fools who screamed your name are riding high  
**G F# Bm D G F# Bm E**  
Your staring eyes reveal nothing, that s all you know

**A E**  
Cos I embrace change  
**F F# D**  
Like my long lost friend  
**A E**  
And I don t take the advice  
**F F# D**  
That I give myself  
**A E**  
When my life is lost  
**F F# D**  
My youth misspent  
**C G A E(7)**  
I dig another hole

There are no imitations in the tears you ve cried  
There are no limitations on the love you feel  
You fear the things you ve never learned, no trusting vice  
So you go the same as before, living out your life

Cos I embrace change  
Like my long lost friend  
And I don t take the advice  
That I give myself  
When my life is lost  
My youth misspent  
I dig another hole  
Yeah, I dig another hole  
Yeah

**F C G Am**  
In time there s people running around  
**F C G**  
In time we ll all stand still  
**F G C G/B Am G**  
I know that this ain t right

**F**

**E(7)**

But that s time we have to kill, oh

When time is never on your side, don t be too quick  
Cos things that don t fly through the air can be mislaid  
And shadows of a nearby life, they fall on the ground  
And all the fools, they still watch you to see if you can make them stop

Cos I embrace change  
Like my long lost friend  
And I don t take the advice  
That I give myself  
And when my life is lost  
My youth misspent  
I dig another hole  
Yeah, I dig another hole  
I dig myself a hole  
Gonna dig another hole  
Yeah
