Verse 1:

**G D Em C**

Well she got warp drive and she got speed

She pack the kind of firepower that every Captain needs

She got the sleekest body and the slickest hull

I gotta, gotta stay on course and make her lose control

Well she hard wired and she got chips

She got the kind of badass body that's built for a five year trip

She got orders - to boldly go

I gotta, gotta open fire and make her make it so

**B C B C**

And in our room at night we explore such strange new worlds

**B C D**

She can be my Vulcan love slave or my green skinned girl

**G D**

She got a red shirt on

**Em C**

And I'm gonna take it off

She'll feel the wrath of my Kahn

And she'll be screaming like Chekov

I know it ain't logical

But for us it seems to work

I get gynecological

Just like Captain Kirk

**G D Em C**

Well she look tacky-on my bed

She's ready in my ready room and it's full speed ahead

She set a course now for the heart of the sun

She gotta, gotta join my crew and be my number one

**B C B C**

And in our room at night we explore such strange new worlds

**B C D**

She can be my blue skin baby or my Trekkie girl

**G D**

She got a red shirt on

**Em C**

And I'm gonna take it off

She'll feel the wrath of my Kahn

And she'll be screaming like Chekov

I know it ain't logical

But for us it seems to work  
I get gynecological  
Just like Captain Kirk

**G**                      **D**                      **Em**                      **C**

She make it, she make it, she make it so  
She want me to go where no man has gone before  
She says sheâ€™s good to go - She tells me so  
She make me boldly go - She make it so
