Notes: There are chords mixed in with the riffs that I didn't bother to write out. It's pretty easy to figure out where they go. Each riff is only written once, but used at least a few times -- it should be obvious where.

There's one chord that I don't know the name of for sure. I wrote it as C9maj7 (my best guess), and it looks like this (low to high):

x20010

Intro - start with a G chord, then:

```

B -----0-----0-----0-----
G -----0-----
D --0h2-----2-2s4---4---0h2-----0h2p0-----
A -----5-----
E -----3-----

```

G **D**
Tonight I'm gonna sleep in a good hotel

Am **C** **D**
A nice warm bath if all goes well I've

G **D**
Been out in the badlands twenty-one days

C **D**
Tracking my bounty down

G D C D **G** **D**

C Out on the glory road **D** **G**

(Repeat chorus)
