And If I Had You
Warren Zevon

And If I Had You

```
E       A     G#m       Ammaj7
Though I have diamond's bride
     E       A     C#m       B7
The light can light the dark hours that I've
E      A      G#m  Ammaj7
Spent here in solitude
E          A          C#m       B7
Who'd have thought I need somebody
E          C#m
Like I do? I need you
```

Chorus:
```
E      B     C#m  B
And if I had you, babe
E  B         C#m     B
My whole life through babe
E      B     C#m  G#m
And if I had you maybe
F#m                 A6                         E B7
I'd feel better and I could forget all the loneliness
```

I have the stars above
What use of it without your love?
I can see beyond the night
Though they write my name in lights
I'm no one, I can't go on

Chorus

```
E                   G#7                 C#m
Yes, I guess my life would be complete
          A                               Bsus4 B
I'd have everything I need, I know it's true
```

Chorus 2 X
