Verse 2

I had someone till she went out for a stroll
Should have run after her
Itâ€™s hard to find a girl with a heart of gold
When youâ€™re living in a four letter world
And if she wonâ€™t love me then her sister will
Sheâ€™s from Say-one-thing-and-mean-anothers-ville
And she canâ€™t seem to make up her mind
When she hears about my dirty life and times
Repeat chord progression
Some days I feel like my shadow casting me
Some days the sun donâ€™t shine
Sometimes I wonder why Iâ€™m still running free
All up and down the line
Gets a little lonely guys you know what I mean
Iâ€™m looking for a woman with low self esteem
To lay me out and ease my worried mine
While Iâ€™m winding down my dirty life and times
