

Dont Let Us Get Sick

Don't Let Us Get Sick - WARREN ZEVON - "LIFE" LL KILL YA - 1999

The weird "Cmaj7sus2" chord is played x2001x

I pluck the strings individually like he does, rather than strum, it definitely sounds better that way. Also, when it comes to the Am chord at the end of the third line of the verse/chorus (i.e. "all right?", "the line" and "in time"), he does a little decoration phrase where he plucks the last three strings of the Am chord kinda quickly, listen out for it in the song, it's a nice touch.

I'm pretty sure it's all correct here, maybe not exactly how he plays it but it sounds good, that's for sure. Another classic by Warren Zevon, enjoy and please leave comments if you find any mistakes.
