

**Outside Chance**  
**Warren Zevon**

Outside Chance

**E7**

You can try to please me but it won't be easy

**D**                    **A**                    **G**                    **D**  
Stone walls surround me I'm surprised you even found me

Chorus:

**A**                    **D**  
And you don't stand an outside chance

**B7**                    **E7**  
And you don't stand an outside chance

**A7**  
But you can try

Whatever you do, girl, you know you can't get through, girl  
You bring me down, hang me up or even hang around

Chorus

**G**            **D**            **Em**  
Oh you think you get me

**G**            **D**            **Em**  
I'm only flesh and bone

**G**            **D**            **Em**  
But you may as well forget me

**G**            **D**            **Em**                    **A7**  
Because my heart is stone, you better leave me alone

Verse 1 + Chorus
