SPANISH TEMPER - Washington

Tabbed by: huyfken
Email: michael.huy.nguyen@hotmail.com
Difficulty: Intermediate

Notes: I tabbed this after watching Washington s performance on Triple J s Like A Version on 22/04/11.

I realise that there are alternate ways of playing some of these chords but this is how the guitarist plays these chords most of the time according to the live recording.

The Intro is an F chord with variations of the D note on the second (b) string. Both the Intro and First Verse are fingerpicked. Listen to the song for the strumming pattern
