

On My Way
Watchmen

Here s an accoustic version I whipped up myself. I did the interlude for a solo accoustic arrangement so I just strum that pattern once or twice.

Your basic chord progression is

G C Em D C

The first three chords are full bars, the last two are strummed quicker in sequence. Enjoy!

Greg

G C
Change yourself not me
Em D C
Vicious fighter I ll agree
G C
Nervous anger scotch part water
Em D C
I ve recovered fine it s me

I ve grown up big and strong
On my way back on

Wear my halo
It ll make you see like me
I fell hard though
But I ll get back up on you ll see

I ve grown up big and strong
On my way back on
Grown up big and strong
On my way back on

In my town I remember
Fought to break my mind down
Paid my toll conscience clear
My conscience is clear

I ve grown up big and strong
On my way back on
Grown up big and strong

On my way back on

I ve lost my place here now
I ve got no place any longer
It s always the same story

***Interlude is just **E D C**

Seven times the man I ll ever be
Like God on Sunday
I kiss the barrel spray my brains
All gone now

Grown up big and strong
On my way back on
Grown up big and strong
On my way back on
