VERSE

Two years ago  
I had no idea  
that you were so perfect  
and as we wait so long  
until we join hands  
you make the way worth it

CHORUS

VERSE

Now years down the road  
still hasn't gotten old  
to sit and laugh the day away  
there's one thing you should know  
my love for you grows  
even more everyday

CHORUS

BRIDGE This is the part I struggled with. It was hard to make it out with  
everything going on

**C**

And that day

**F** **G**

I finally can take you home

**C** **F** **G**

there's no way I'm ever ever letting go

**C** **F** **G**

We'll be ok, though miles may separate

**C** **F** **G**

There's no space between our hearts

**C** **F** **G**

And this day, I choose to keep loving you

**C** **F** **G**

As if it were a choice, I can't stop falling

END CHORUS THINGY
