**G**                      **D**                      **Cadd9**  
I remember the nights we spent under city lights

This feelings got the best of me  
**G**                      **D**                      **Cadd9**  
We were floating along to the sounds of a dead end town  
  
But now that s just a memory

**G**                      **D**                      **Cadd9**  
I can t figure you out, you ve got more fight in you

Than anybody else  
**G**                      **D**                      **Cadd9**  
And here s the part where I start to make my own damn decisions  
  
And make a name for my self

Chorus:

**C**                      **G**  
I ll never be what you want  
                         **D/F#**  
I wouldn t change any part of me  
                 **Em**  
Just to make you stay  
**C**                      **G**  
You had a piece of my heart  
                         **D/F#**  
But not enough to just run away  
                 **Em**  
Cause I know what s best for me

Verse 2:

**G**                      **D**                      **Cadd9**

Take all your big plans and throw them away

I've got something in mind before we go separate ways

**G**                      **D**                      **Cadd9**

We ask the questions baby,

Who provides the answers?

[Try doing 2 short/fast strums on both C and G]

**C**

I'm scared to death and it shows

**G**

The flame burned out, but it glows

**D/F#**                      **Em**

And the look in your eyes says things I don't wanna know

**C**

It's time to go!

Come closer!

**G**                      **D/F#**                      **Em**

And I can't say anything, everything comes out the wrong way

Chorus (again)

**C**                      **G**                      **D/F#**

Just try, just try a little harder

**Em**

I'll do my best explaining all the things I'm going through

**C**                      **G**                      **D/F#**

Just try, just try a little harder

**Em**

This is why I can't adjust for you

Bridge:

**Em**                      **D/F#**                      **G**

You..... can't .....say

The look in your eyes says things I don't wanna know

**Em**                      **D/F#**                      **G**

No you, You can't stay

**Em**                      **D/F#**                      **G**

I wanna be with you, and no one else

**Em**

**D/F#**

I need you to feel the way that you felt that summer night

**C**

**D**

When you found that puzzle piece missing for eight straight weeks

You're not the perfect fit

[you can do 2 short/fast strums for each C and G]

**C**

I'll never be what you want

**G**

**D/F#**

I wouldn't change any part of me

**Em**

Just to make you stay

**C**

You had a piece of my heart

**G**

**D/F#**

But not enough to just run away

**Em**

Cause I know what's best for me
