

Rumor Mill

We Are The In Crowd

Here is my transcription for Rumor Mill - great song by an amazing band. I worked it out by ear, so it may not be 100% perfect, but I think it sounds good. Questions/comments/suggestions/corrections are encouraged and welcomed! Enjoy!

Note: In the instrumental break right after the second chorus, they quickly switch between two notes two times. I wrote it in as D (lift off middle finger) in two spots. Its not the proper chord name but if you play it, it will fit well.
