See You Around
We Are The In Crowd

```
G#              F#
I got with a girl
                  A#
and started a war.
               C#
How could I know she was trouble? Oh.
G#                       F#
I thought that I could ignore her.
             A#          C#
Now I m closer, but at least I m not sleeping alone.

G#              F#
I gave him the world.
                   A#
Showed him the door.
                 C#
Now he should know how it feels to go.
G#                        F#
I m broken down on the surface.
             A#
I don t deserve this.
             C#
It s the last straw now.

      G#               D#
Say goodbye to the night.
       A#                        C#
I m getting into trouble and dancing with the devil.
     G#          D#
If you want to fight.
         A#
Well, girl you must be dreaming.
     C#
I love to hear you screaming.
            G#              D#
Well then I give up if you just stop
         A#
this whole thing altogether.
       C#
You used to be my treasure.
          G#          D#
What if I say goodbye
           A#
for the last time?
       C#
I m closer than you realize.
```

```
G#                      F#
I travelled the world
                        A#
to forget about the girl.
              C#
How could I know she would follow me?
G#              F#
Wherever I go now,
          A#                    C#
I don t know how, but he s always there.

      G#              D#
Say goodbye to the night.
      A#                      C#
I m getting into trouble and dancing with the devil.
    G#          D#
If you want to fight.
        A#
Well, girl you must be dreaming.
    C#
I love to hear you screaming.
          G#              D#
Well then I give up if you just stop
      A#
this whole thing altogether.
      C#
You used to be my treasure.
        G#          D#
What if I say goodbye
          A#
for the last time?
      C#
I m closer than you realize.

G#                              D#
Tell me how you feel about moving on without me now.
A#              C#
Go on, go on.
G#
Shake it off and hold me down.
D#                          A#              C#
I don t want to see you around.

        G#              D#
Well then I give up if you just stop
      A#
this whole thing altogether.
    C#
```

You used to be my treasure.

```
        G#                    D#
Say goodbye to the night.
        A#                              C#
I m getting into trouble and dancing with the devil.
      G#              D#
If you want to fight.
          A#
Well, girl you must be dreaming.
      C#
I love to hear you screaming.
            G#              D#
Well then I give up if you just stop
        A#
this whole thing altogether.
        C#
You used to be my treasure.
          G#          D#
What if I say goodbye
            A#
for the last time?
        C#
I m closer than you realize.
```
