Tabbed by: SylvanMist

**G**            **Em**            **C**  
I drew this map incomplete  
                                 **D**  
And what I ve drawn  
                                 **D/F#**                    **G**  
is all from dreams and memories  
**G**            **Em**                                    **C**  
Nothings to scale it s just a sheet  
                                 **D**  
So you can be sure  
                                 **D/F#**                    **G**  
that we will fail to some degree  
**G**            m                                    **C**  
Knowing so would you still believe  
                                 **D**  
And take the first step  
                                 **D/F#**                    **G**  
and plot more of this course with me  
**G**                                    **Em**            **C**  
And I drew this map incomplete  
                                 **D**  
With the high hopes  
                                 **D/F#**                    **G**  
you would finish it with me

CHORUS

**G** **D/F#**    **Em**  
Oh here we go  
                                 **C**  
Into the unknown  
                                 **G**            **D**  
As our lives unfold  
**G** **D/F#**    **Em**  
Oh here we go  
                                 **C**  
From the beginning  
                                 **G**  
And where this ends  
                                 **D**

We don t know

                                 **D/F#**                    **G**  
is all from dreams and memories

So you can be sure  
                                 **D/F#**                    **G**  
that we will fail to some degree
