

**In-N-Out Animal Style**  
**We the Kings**

This is one of my favorite songs on Smile Kid and I really wanted to learn to play it, but because it had not been tabbed yet I decided to learn it by ear/by watching live acoustic performances. So to everyone else who wants to learn it and can't find the chords, here's my closest guess. This is my first tab ever, so feel free to make revisions.
