-----9-11v-----9--11(bu)12(bd)11--9---11/13-11---
----/11-----/11-----

```

Repeat above (and change it a bit)

(bend and pick this part)

```

-----
-----9-10-7-----12(bu)14(bd)12--
-----9--11(bu)12-12-(bd)11-----
-----/11-----11-----
-----
--2-3-4-----

```

Again, repeat the above and change it a bit.

```

--12-11-9-----
-----12-10-9-----
-----11-9-----
-----11-10-9-----
-----11-10-97/97-----
-----

```

Listen to the CD for the right pitches on this part.

(This is from memory, this part might need to be transposed up/down a bit)

```

---14(bu)?-----?(pb)12-----14(bu)?---12-----14--14(bu)?--12--
-----14-----14-----
-----
-----

```

Then go back to begining. The fuzzed solo is the same key but more
free-style,
so i won't tab it.
