It's Gonna Be Alright
Ween

Am (intro)

```
  C                        Am
  Baby what have I done
F         C        G/B  Am
  Gone and left you all alone
  C                          Am
  It s hard for me to sing this song
F            C       G/B    Am
  We ve been together for so long
F                     C      G/B    Am
  I think I know what my soul s got to say
F            C      G/B      Am
  And it won t hurt as bad, someday

             C  Am       G
  It s gonna be al-right, baby
             C  Am       G
  It s gonna be al-right, love
           C                       Am
  And if the mist ever lets the sun through
         G
  I ll just hope I did the right thing
          Am (strum)
  For me and you

  C                          Am
  Guess I m ruled by my heart
F                C          G/B  Am
  Built a life and I tore it all apart
  C                    Am
  It s just not our time
F                 C          G/B      Am
  But you ll find a new love and you ll be fine
F      C       G/B    Am
  So many dark and lonely nights
F                  C        G/B      Am
  But I believe some day I ll see the light

             C  Am       G
  It s gonna be al-right, baby
             C  Am       G
  It s gonna be al-right, love
           C                       Am
  And if the mist ever lets the sun through
         G
  I ll just hope I did the right thing
```

```
          Am (strum)
For me and you

(repeat Chorus)
```
