WEEN - STRAP ON THAT JAMMY PAC

This is a real fun one to play. You want to tremolo strum all the chords. In case you don't know what that is, basically play them as fast as possible in an up-and-down motion. The final two strums are played as a slow downstroke and a quicker upstroke. If you have no drum kit with you, you can hit the body of the guitar. As always, I guessed the lyrics to this song along with what is already known. Enjoy, mang!

And get up off my floor

(same pattern throughout)

Strap on that there jammy pac

And slide a double dime my way

Dry off your jib-jibbity pac

And hip me to the game you play

She's jonesin' for a jammy

With a girl that I call Tammy,

So strap on that there jammy pac,

It's time for you to pay

Strap on that there jammy pac

She hypnotized one dude

Stings you like a heart attack

Van Winkle says fuck you.

Never made me no supper

A boy like me needs it, too

So strap on that there jammy pac
