King - Weezer

This is a bonus track off of Weezer's Red Album...  
I find it to be very kick ass. Buy the deluxe edition on iTunes and listen to Miss also.  
These two songs RAWK and should have made the album... Such is life.

The annoying thing about Weezer is they tend to tune down their guitars a half step for every song... so they play the fingering as if this song were in Bm, but in actuality it is Bbm. I usually just play it a half step up, so that's how I tabbed this mo fuckah.

(Oh yeah... And it's the same four chords the whole time.)  
Here ya go...

King - Weezer

VERSE 1

	<b>Bm</b>	<b>D</b>
One night at the disco I wanted to dance slow		
	<b>Em</b>	<b>F#</b>
I saw a sweet baby, such a fine lady		
	<b>Bm</b>	<b>D</b>
And I walked up to ask her, but some dude just grabbed her		
	<b>Em</b>	<b>F#</b>
I told him to back off, cut me some slack off		
	<b>Bm</b>	<b>D</b>
I see you come here, drinkin that cheap beer		
	<b>Em</b>	<b>F#</b>
Act like you own it, I can't condone it		
	<b>Bm</b>	<b>D</b>
You show me no respect, you got to get off it		
	<b>Em</b>	<b>F#</b>
You got to get with it. Time for a swift kick		

CHORUS

	<b>Bm</b>	<b>D</b>
You see, I own this town. You best not come around.		
	<b>Em</b>	
If you wanna get by, then cool it down.		
	<b>F#</b>	
If you wanna start something, know one thing: I'm king.		

**Bm**

**D**

If you wanna mess around like that, that s just how it is.

**Em**

If you wanna get by, then mind your biz.

**F#**

If you wanna start something, know one thing: I m king.

## VERSE 2

(verse 2 goes the same way as verse 1, but with these lyrics)

You wanted attention and did I mention:  
Nobody likes you, except for the losers  
You made a whole army, an army of babies  
Some of them stupid, some of them crazy  
Pick up your action, act like a grown man  
Look at the winners, you can be like them  
Life is so easy, pleasant, and dreamy  
If you get off me, if you get with me

## CHORUS (again)

## BRIDGE

**Bm**

You can t break me

**D**

Never take me

**Em**

**F#**

That s just how it is

**Bm**

You can t break me

**D**

Never shake me

**Em**

**F#**

Clear out of my biz

CHORUS (a third time, then the progression repeats for a while, and you do some vocal  
and you sound great, then the song ends.)
