Fragile Heart

A

A fragile heart

E

Was broken before

D

A

I don't think it could endure another pain

A

But there's a voice

E

From deep inside of you

D

A

That's calling out to make you realize

A

That this new bond

E

Gives inspiration

D

A

To all that feel no love appeal no more

A

So how can I break

E

This wall around you

D

A

That's aiding both our hearts to grow in pain

D

E

So forget your past

Bm

F#m

And we can dream tomorrow

D

E

F#m

Save our hearts for care and lovin' too

D

E

It's hard I know

Bm

F#m

But oh one's things for sure

D

E

A

Don't go and break this fragile heart

B

A hurting mind

F#

In need of emotion

E

B

I don't think it could endure another pain

B

But baby in you

F#

I've found affection

E

B

Affection I have never felt before

E

F#

So don't let your past

Ebm

G#m

Destroy what comes tomorrow

E

F#

Don't go and break this fragile heart

C#

With all this fire

G#

That burns between us

F#

There's so much to lose

C#

yet so much more to gain

C#

And if I could choose

G#

The world around me

F#

The world I'd choose

C#

would all revolve around you

C#

So help me complete

G#

The game inside me

F#

G#

C#

And help to mend, to mend this fragile heart
