Westlife- Moments

**A E**          **D**                          **E**  
If I die tonight, I d go with no regrets  
                  **A E**          **D**                          **E**  
if it s in your arms I know that I was blessed  
                  **Bm A**          **D**                          **A**  
and if your eyes are the last thing that I see  
**D**                  **A**  **E**  
then I know the beauty heaven holds for me.  
                  **A E**          **D**                          **E**  
But if I make it through if I live to see day  
                  **A E**          **D**                          **E**  
if I m with you I ll know just what to say  
                  **Bm A**          **D**                          **A**  
the truth be told, girl you take my breath away  
                  **D**  **E**  
every minute, every hour, every day

Chorus

**A**                                  **A4**  **A**  
Cause every moment we share together  
**D**  **G**  **E**  
is even better than the moment before  
          **A**  **C#m**  
if every day was as good as today was  
          **D**                  **E**                          **A**          **(A D E)**  
then I can t wait until tomorrow comes

**A E**                                  **D**                          **E**  
A moment in time is all that s given you and me  
          **A E**                          **D**                          **E**  
a moment in time, and it s something you should seize  
          **Bm A**                  **D**                          **A**  
so I won t make the mistake of letting go  
                  **D**  **E**  
everyday you re here I m gonna let you know

Chorus

**A**                                  **A4**  **A**  
That every moment we share together  
          **D**  **G**  **E**  
is even better than the moment before  
**A**  **C#m**

if every day was as good as today was  
D E A
