Club Tropicana - Wham!
Tabbed by smldger

D# G# C# F# A# D# (tune down a semitone)

It could be played standard tuning but doesnt sound quite right.
Or capo4 standard tuning with chords **D, G, Bm**

Its only a quick tab I threw together (as you can probably tell from it being 3 chords) because a woman called prothero started played it at a party and a flatmate babs started singin it ALL THE TIME so I keep getting it stuck in my head. If anyone could tab it better that would be great ideal but there wasnt a tab anywhere that I could find before this one .

G
Let me take you to the place

C
Where membership s a smiling face,

G **C**
Brush shoulders with the stars.

G
Where strangers take you by the hand,

C **G**
And welcome you to wonderland -

C
From beneath their panamas...

Chorus:

C **Em**
Club Tropicana, drinks are free,

C **G**
Fun and sunshine - there s enough for everyone.

C **Em**
All that s missing is the sea,

C **Em** **G**
But don t worry, you can suntan!

Jokes on Prothero btw, she had to bake her own birthday cake
