We should overcome  
**F** **C**  
There s enough at stake  
**F** **C** **G** **F**  
For us to tear the walls down and escape  
  
**F** **C**  
Leave it all behind  
**F** **C**  
Erase and start anew  
**F** **C** **G** **F**  
It s not a question if it s just what we should do  
  
**Em** **Am** **F** **C**  
There s hope for anyone on the other side  
**Em** **Am** **F** **G**  
What s the use in hope if we re afraid of trying?

We should understand  
Try to sympathize  
With the kind of people we despise

There s nothing left to lose  
Except for compromise  
Looking at the world through someone else s eyes

We ve got a lot to learn from the other side  
We re too proud to see what we re busy denying

(Solo - same progression as verse)

There s salvation waiting on the other side  
We don t want to live but we re afraid of dying

Life is what you choose  
Love is what you make  
Success is based on chances that you take

We re the ones to blame  
If absolution is denied  
Cause we were so concerned about the other side (End on C)
