Song title:Close to you

Tabbed by:Jan2 Moreno Seron st.Kab.City Neg.Occ.

D **F#m**
Nobody pays much attention

G **A**
They misuse their time

D **F#m**
Maybe it s better to mention

G **A**
Moments passing by

F#m **Bm**
A secret to tell

F#m **Bm**
I got something they don t have

G **A**
And baby it s you that is lifting me high

[Chorus]

D **F#m**
I just wanna be close to you
G

Cos I understand
The strength of your hand

D **F#m**
Oh and love that you put me through
G

You re more than a friend
So love me again

(Do Stanza Chords)

Baby you re full of affection
People stop and smile
Maybe they see my intention
To make life worthwhile

A secret to tell
Now there s nothing holding back
Cos baby it s you that is making me fly

I just wanna be close to you
Cos I understand
The strength of your hand
Oh and love that you put me through

You re more than a friend
So love me again

I just wanna be close to you
Cos I understand
The strength of your hand
Oh and love that you put me through
You re more than a friend

A secret to tell
Now there s nothing holding back
Cos baby it s you that is making me fly

Oh baby oh yeah
Love that you put me through
Love that you put me through

I just wanna be close to you
Cos I understand
The strength of your hand
Oh and love that you put me through
You re more than a friend
So love me again
