[C] Oh where, where s my nurse with my bottle [G] of pills?
With the [C] daylight, come dancing in through [G] the blinds
It s the [F] comfort of a woman the pills can [C] provide
It s this [G] terrible, terrible [F] pain, in my [C] mind

[C] So where, where s my nurse with my bottle [G] of pills
She said she d [C] be right back, with the jack [G]
It s the [F] comfort of a woman the pills can [C] provide
It s this [G] terrible, terrible [F] pain in my [C] mind

[C] So where, where s my nurse with my bottle [G] of pills
With the [C] daylight, come dancing in through [G] the blinds
It s the [F] comfort of a woman the pills can [C] provide
It s this [G] terrible, terrible [F] pain, in my [C] mind
