

**Only My Soul**  
**Whitesnake**

I couldn't find any chords for this song, so I listened to it and wrote the chords  
by myself. Maybe it isn't perfect, sorry!

**Am**            **G**                    **D**    **F E**  
Only my soul, stops me crying,  
**Am**            **G**                    **D**  
Wondering why I feel alone  
**Am**            **G**  
And only my love keeps me from  
**D**            **F**    **E**  
Weeping, so bad,  
**Am**            **G**                    **D**  
Giving me strength, to carry on

**C**        **G**                    **Am**  
Lead me on thro' restless waters,  
      **F**        **G**                    **Am**  
Walk with me along the way  
      **F**            **Em**                    **Am**  
Live the moment, and tomorrow  
              **C**                    **G**  
For the Lord will take it all  
              **Am**  
On judgement day

**Am**            **G**                    **D**    **F**    **E**  
Broken dreams lay all around me,  
**Am**            **G**                    **D**  
Sad eyed children of despair  
**Am**            **G**                    **D**    **F**    **E**  
Whispered voices in the distance  
**Am**            **G**                    **D**  
Call me on to who knows where

**C**        **G**                    **Am**  
Lead me on thro' restless waters,  
      **F**        **G**                    **Am**  
Walk with me along the way  
      **F**            **Em**                    **Am**  
Live the moment, and tomorrow  
              **C**                    **G**                    **Am**

Cos the Lord will take it all on judgement day,  
          **F**                          **G**                          **Am**  
And the Lord will take it all on judgement day

**G**          **D**                  **Am**  
Hear me crying out for love  
**G**          **D**                  **Am**  
Hear me crying out for love  
**F**                          **G**  
I ll never let you know it,  
**Dm**                  **Em**          **Am**  
I can only show it in my song  
  
Only my soul
